

# Shark Tank and Oneflight International - Robert Herjavec Interview

January 27, 2020

Canada's own Robert Herjavec has more than just Shark Tank on his mind these days. One of North America's leading entrepreneurs is singing the praises of private air travel!

The well known entrepreneur and frequent business traveler known best from *Shark Tank*, has joined ONEflight International as Brand Ambassador and swears the state of the art access and affordability of private air travel is the way of the future.

Robert Herjavec is one of North America's most recognizable business leaders. A dynamic entrepreneur, Robert has built and sold several IT companies and is the Founder & CEO of Herjavec Group. He shares his expertise with other entrepreneurs each week as a leading Shark on the Emmy® Award-winning hit show, *Shark Tank*.

He's also a business traveler who logs hundreds of flight hours each year and personally knows the benefits of flying charter. He has joined ONEflight International, the fastest growing and industry leader for accessible private jet travel. Herjavec is convinced that private travel isn't just for the rich and famous anymore. According to Herjavec, the ease and accessibility of private air travel today has become more affordable than ever before.

With ONEflight International's proprietary booking platform, Book A Jet [BAJit] - clients have access to over 4,000 aircraft globally and get the lowest, unbiased, universal price point. [BAJit.com](http://BAJit.com) is the most advanced technology available today to securely search, select, and book one's private aircraft of choice based upon availability, size, pricing, and amenities - as simple as booking a hotel room. By reducing the historically costly problem of charters' "empty legs," ONEflight is reducing the cost by up to 30% while increasing efficiency and sustainability.

ONEflight International CEO and President, Ferren Rajput says, "Robert's celebrity aside, as a business traveler who logs hundreds of hours each year and personally knows the benefits of private jet travel, he is our ideal brand ambassador. He has learned the art of maximizing the limited hours one has each day, often traveling to meetings in multiple cities across the US and Canada. We truly believe that Robert's experience and voice will amplify our goal to simplify executive business travel and help others attain their desired level of success."

Robert Herjavec shares, "I'm proud to partner with ONEflight International and have been a fan of their BAJit system since Day 1. ONEflight makes private air travel so convenient while still maintaining a luxury experience. I always like to say, 'even Superman only has 24-hours in a day!' It's what you do with those hours that counts. With the amount of traveling I do I've been very fortunate to maximize my time and productivity by flying private. ONEflight is making that possible for more business leaders globally."

**ONEflight International** - Launched in late 2010, ONEflight International is the fastest growing, and industry leader for accessible private jet travel. With the world's largest network of quality jets, made up of 500 of the best charter operators, and a proprietary [BAJit.com](http://BAJit.com) [Book A Jet] booking platform, clients have access to over 4,000 aircraft globally and get the lowest, unbiased, universal price point.
